Roses	26
Vines and Climbers	28
Gladioli	29
Bedding Plants	30
Annual Climbers	32

Notice to Correspondents

Our office and grounds are open for business from 7:30 A. M. to 4:30 P. M. If notice is given in advance appointments can be made for any time.

SHIPPING SEASON

Our shipping season opens in the spring, about the 15th of April, closing in early June according to the season. In the fall it extends from the end of August to the beginning of December.

FALL PLANTING

With a few exceptions, fall planting of the herbaceous plants is as successful as spring, and many of the early flowering plants, storing their food over the winter, should be planted in the fall, when possible, in preference to the spring.

SELECTED STOCK

Stock selected by customers at the Nurseries, or specially selected stock ordered by mail or otherwise, will be charged at advanced rates according to the value of the stock selected.

QUANTITY

One to four plants of a single variety will be priced at the each rate. The five, ten, and hundred rates will apply only when those quantities consist of a single variety.

Five to thirty-nine plants of one variety and size will be priced at the ten rate.

Forty or more plants of one variety and size will be priced at the hundred rate, when hundred rates are given.

FROM THIS SCHEDULE WE WILL NOT VARY because of the fact that considerable time is required to assemble an order made up of small lots of a kind that are scattered over the nursery.

PACKING

Packing will be done in the most careful manner for shipment to any part of the world. We have made a special study of good packing, and our most distant shipments have rarely failed to reach their destination in the best condition. The packing of Trees and Shrubs will be charged for at actual cost. Herbaceous plants of all kinds will be packed without charge.

DELIVERY

Merchandise for points within the village will be delivered free. Merchandise for points outside the village but on Mt. Desert Island, amounting to ten dollars or more, will be delivered free. Within a radius of fifty miles any order amounting to fifty-dollars or more will be delivered free.

SHIPPING

We can ship either by Maine Central Railroad or Eastern Steamship Freight or by American Railway Express. Customers are requested to state the mode of shipment; otherwise we shall forward according to our best judgment. After delivery to the forwarding agent all goods are at the risk of the purchaser.

MOUNT DESERT NURSERIES

INSPECTION

A certificate of inspection will be sent with each shipment where required.

ERRORS

Customers will confer a great favor if they will notify us promptly of any error that may have been made in filling their orders, to enable us immediately to correct the error.

CLAIMS

Claims cannot be considered unless made immediately upon receipt of goods.

NON-WARRANTY

While we use the utmost care to have our nursery stock, plants, bulbs and seeds true to name, and will replace any that may prove untrue, no sale by us carries a warranty, expressed or implied, as to the description, quality, productiveness, or other character of any nursery stock, bulbs, plants or seeds which we send out, nor will we be in any way responsible for the crop; and for any error we shall not be held liable for more than the purchase price. Every purchase is made on these terms.

INFORMATION

Advice or information concerning the construction and maintenance of grounds can be furnished.

We are equipped to construct gardens, pools, tennis courts, lawns and driveways.

THE MOUNT DESERT NURSERIES,

Ocean Drive Road,

Bar Harbor, Maine.

Telephone 16 ,

PERENNIALS

All hardy perennials unless otherwise noted are 35 cents each; for 5 or more of one variety 30 cents each; for 40 or more of one variety 20 cents each.

Cimicifuga foetida simplex

This plant is extremely valuable because of the late period in which it flowers. Beginning about the middle of September it attains its full perfection about the middle of October. Its dense spikes of white flowers are borne on stems two and one-half to three feet tall.

Price, \$1 each; \$8 for 10

Dictamnus fraxinella

A fine old garden plant growing about two feet tall and forming in the early summer dense tufts of green above which rise racemes of red or white flowers. This plant does best in a light soil. The plants which we offer for sale are large four-year-old clumps.

Price, large plants, 75 cts. each

Epilobium angustifolium album (White Fireweed)

A new and decidedly attractive sport of the common Fireweed. Its snow-white flowers, borne in loose spikes five to six feet in height, furnish an attractive cloud-like effect in the garden throughout the month of July. This plant is perfectly hardy and should certainly be included in any planting where perennials of this height would be acceptable.

Price, 75 cts. each; \$6 for 10

Cyclone \$2.75 each, Postpaid Horn 95c each, Postpaid

Monarch Seed & Feed Co.
Medford, Oregon

The Cyclone Seed Sower

Broadcasts Evenly • Saves Seed

THE SOWER THAT
SCATTERS EVENLY

Uneven seed-
ing is wasteful.
The "Cyclone"
will sow many
acres per hour,
any amount per
acre. Does the
work quickly
and

SAVES LABOR

Many hundred
thousands of
farmers in Am-
erica, Canada,
Europe and oth-

er countries have relied on it for sowing clover,
timothy, alfalfa, lespedeza, sudan grass, oats, wheat
or any other seed that is sown broadcast.

CONSTRUCTION—Its well known Double Feed in-
sures a uniform flow of seed. Sloped Feed Board
keeps hopper properly filled. Feed Adjustment is
automatic and starts or stops the flow of seed in-
stantly. Distributing Wheel scatters seed evenly.
Throws equal amounts to equal distances on each
side of operator.

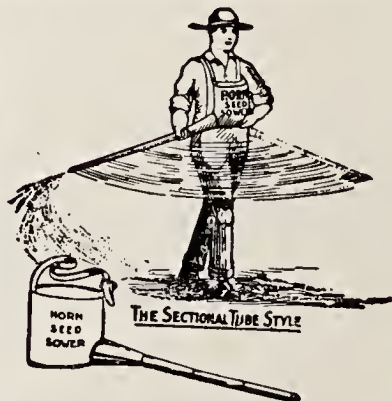

The Sectional Tube Style
Has Patented Brass Seed Gauge

The "HORN" SEED SOWER

The tube is made in four
sections or joints---They
assemble like a stove pipe
and not like a telescope.

Will sow perfectly all
smooth seeds like alfalfa,
clover, timothy, lespedeza,
etc., any desired amount
per acre and you can rely
on this perfect seed gauge.

Easily operated--Guaranteed
